

kuskoa

# kuskoa by Alki

## product information

Offered through a partnership with Alki in Itsasu, France, Kuskoa rethinks the role of form and materiality in the new workplace. From large cafés to small collaboration zones, the chair, counter-height stools and bar-height stools offer versatile elegance paired with a range of table types. The stools provide a mid-back support for longer gatherings and a metal footrest to encourage good posture. A range of material options and finishes provides a variety of ways to express your space. The veneer shell nestles within a solid oak base, which can be finished five ways. Material accents complement the warmth of the wood with optional inner and outer seat upholstery.

**Designer**  
Jean Louis Iratzoki
