01 multi-level workstation
Secondary desks, available up to 108 inches wide, support the run-off worksurface unifying structure and appearance.

02 enclosed breakfront desk
Enclosed breakfront desks and storage in rich wood tones offer a traditional casegoods office setting.

03 post leg
Part of a wide selection of surface supports, square post legs offer an open and light desk style.

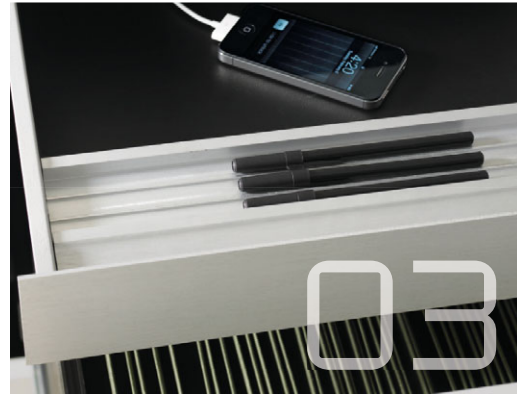

04 open frame leg
Executive tables with an open frame leg, combined with storage-front glass doors create a contemporary office.

05 broad desk offering
Desks are available up to 84 inches wide in a 1, 1 1/4 and 1 3/4 inch surface thickness.

06 overhead storage
Overhead storage can be mounted as a Hutch, on drywall or on Wall Panels for diverse applications.

07 finishes
A combination of finishes, including laminate and Flintwood, creates a traditional, contemporary or mixed aesthetic.

08 bench seating
A reception environment planned with different surface heights and casual bench seating adds areas for collaboration.

01 multi-functional drawer

The Multi-functional Drawer has an anodized front and aluminum pencil drawer. It can be installed under most worksurfaces and above the Cubic Tower filing drawer.

03 multi-functional storage

Multi-functional storage has soft non-skid black inlay. Optional drawer lock secures personal items.

05 light shelf

A discreet Light Shelf can be installed on the Wall Panel with tool rail, providing space for personal items or frames. A linear LED light can also be installed on the Wall Panel.

07 tool rail

Paper trays and other personal organizers mount to the Tool Rail. Rails can be installed at various heights and stacked to increase capacity.

09 reception desk

Reception desk module elements include accessory rail and tackboard options.

11-12 meeting tables

Meeting tables provide convenient access to power and communications at worksurface height. The optional power grommet is neatly integrated into the surface of the table to maintain aesthetics.

02 cubic and full door towers

Cubic and Full Door Towers mounted on secondary desks accept Multi-functional Drawers in the pigeonhole section.

04 removable pencil tray

Removable pencil tray allows storage of most portable electronic devices while data/communications remains connected.

06 frame leg

Frame legs can be specified open and with glass or laminate infill. Anodized finish can be specified on the frame.

08 multi-functional storage

Multi-functional storage for the secondary desk creates storage space designed to accept computer towers and manage power bars and cables.

10 wall panel power

On the Wall Panel, power/data can also be specified under the primary worksurface to discreetly deliver cables and manage electronic devices.
